

HYA WELLNESS

THE PREMIUM WELLNESS EXPERIENCE

ADVANCED PREVENTION, EASTERN RESTORATION
ONE TRUSTED HOLISTIC JOURNEY

EXPERIENCE PATHWAYS

TWO CURATED WAYS TO EXPERIENCE THE JOURNEY

All programmes follow the same programme scope and structure. The difference lies in the environment, level of privacy, and overall experience.

CLASSIC SERIES

A WELL-ESTABLISHED CITY EXPERIENCE, DESIGNED FOR COMFORT, FLOW, AND EASE.

Highlights

- Central location, easy commute
- Spacious, comfortable setting
- Smooth, high efficient process (estimated completed within 2 hrs*)
- A highly organised, streamlined experience

* Estimated completion time of approximately 2 hours applies to the Comprehensive Preventive Screening Programme only. Additional specialist modules may require extended time.

SAME PROGRAMME. STREAMLINED EXPERIENCE

EXPERIENCE PATHWAYS

TWO CURATED WAYS TO EXPERIENCE THE JOURNEY

All programmes follow the same programme scope and structure. The difference lies in the environment, level of privacy, and overall experience.

SIGNATURE SERIES

OUR MOST REPRESENTATIVE EXPERIENCE, THOUGHTFULLY CURATED FOR BALANCE, REFINEMENT, AND DISCRETION

Highlights

- A green retreat in the city
- Enhanced privacy and discretion
- Selected access to more advanced technologies
- More personalised attention

SAME PROGRAMME, ELEVATED EXPERIENCE

COMPREHENSIVE PREVENTIVE SCREENING PROGRAMME

CLASSIC SERIES: \$670
SIGNATURE SERIES: \$1,094

MEDICAL ASSESSMENT

Full Physical Examination
Full Biometric Parameters

EYE EXAMINATION

Visual Acuity Test
External Eye Examination
Non-contact Tonometry
Retinal Photography

ENT & DENTAL

ENT Examination
Dental Examination

CARDIAC ASSESSMENT

Resting Electrocardiogram (ECG)

WOMEN’S HEALTH

Gynaecological Examination
Vaginal Swab Examination
Liquid-Based Cytology (Pap Smear)
HPV DNA Genotyping (27 Types)

HAEMATOLOGY & BIOCHEMISTRY

Full Blood Count (5-Part Differential)
Erythrocyte Sedimentation Rate (ESR)
Electrolyte Panel
Trace Elements Panel
Anaemia Profile

URINE & KIDNEY FUNCTION

Urine FEME
Blood Urea Nitrogen (BUN)
Creatinine
Uric Acid
Cystatin C

LIVER FUNCTION

Liver Function Panel (11 items)

LIPID & CARDIAC

Lipid Profile (Comprehensive, 9 items)
Blood Rheology
High-Sensitivity C-Reactive Protein (hs-CRP)
Cardiac Enzymes (CK, LDH, α-HBDH)

DIABETES

Fasting Blood Glucose (FBG/FPG)
HbA1c

ENDOCRINE ASSESSMENT

Thyroid Function Test (T3, T4, FT3, FT4, TSH)

GASTROINTESTINAL FUNCTION

Pepsinogen I & II
PG I / PG II Ratio
Gastrin-17 (G-17)
Helicobacter Pylori Breath Test (C-14)

RHEUMATOLOGY

Rheumatoid Factor (RF)
Anti-streptolysin O (ASO)

TUMOUR MARKERS & VIRAL RISK SCREENING

Tumour Markers Panel (Male/Female, 12 makers included):
CEA
AFP
Total PSA (male)
Free PSA (male)
NSE
CYFRA 21-1
CA 50
CA 125
CA 19-9
CA 15-3
CA 72-4
SGF
CA242 (female)
β-hCG(female)
EBV EA-IgA / EBV VCA-IgA

ULTRASOUNDS (ALL INCLUDED)

Abdomen
Prostate (Male)
Thyroid
Breasts(Female)
Pelvis (Female)
Carotid Duplex
Echocardiography

BONE HEALTH

Bone Mineral Density Test (BMD)

ADVANCED IMAGING

Low-Dose CT (LDCT) Chest

ADDITIONAL SERVICES

Complimentary Breakfast

*Programme pricing varies by service series, reflecting differences in clinical environment, privacy level, and service experience.
All screening items remain consistent across both series.

OPTIONAL SPECIALIST MODULES

DESIGNED TO PROVIDE DEEPER PREVENTIVE INSIGHT
BEYOND THE COMPREHENSIVE CORE PROGRAMME

CARDIO–CEREBRO FOCUS MODULE	CLASSIC SERIES: \$348 SIGNATURE SERIES: \$494
-----------------------------	--

Designed for enhanced preventive assessment of cardiovascular and cerebrovascular health.
To identify those with high risk factors like diabetes, sedentary lifestyle, overweight, family history, males over 40 and females over 50.

- Tests:**
Homocysteine (Hcy)
NT-proBNP (N-terminal pro-B-type Natriuretic Peptide)
Arterial Stiffness Assessment
Transcranial Doppler (TCD) Examination
Coronary Artery Calcium Scoring (CAC)
High-Resolution Brain MRI

GASTROINTESTINAL FOCUS MODULE	CLASSIC SERIES: \$1,014 SIGNATURE SERIES: \$1,444
-------------------------------	--

Designed for advanced preventive assessment of gastrointestinal health using non-invasive technologies.
To identify individuals with gastrointestinal risk factors such as chronic digestive symptoms, family history of colorectal or gastric cancer, irregular diet patterns, or those seeking early risk insight without invasive procedures

- Tests:**
Septin9 Epigenetic Blood-Based Colorectal Cancer Risk Assessment
Magnetically Controlled Capsule Gastroscopy

GENOMIC CANCER RISK PANEL MODULE	CLASSIC SERIES: \$463 SIGNATURE SERIES: \$662
----------------------------------	--

Designed for preventive assessment of inherited cancer susceptibility through targeted genetic screening.
To identify individuals with a family history of cancer, known genetic predisposition concerns, or those seeking early insight into inherited cancer risk for long-term preventive planning.

- Tests:**
Septin9 Epigenetic Blood-Based Colorectal Cancer Risk Assessment
Male Cancer Genetic Risk Panel (15 Genes)
Female Comprehensive Cancer Genetic Risk Panel (18 Genes)
Upper Abdominal MRI

EXPANDED GENOMIC & MOLECULAR CANCER EARLY RISK MODULE	SIGNATURE SERIES: \$2,492
---	---------------------------

Designed for advanced molecular-level assessment of early cancer risk signals.
To identify individuals seeking the most comprehensive preventive insight, including those with elevated concern due to family history, previous abnormal findings, or a desire for deeper molecular and genomic risk evaluation.

- Tests:**
ctDNA-Based Cancer Early Risk Screening (female 21 cancers; male 19 cancers)
OR Whole Exome Sequencing (Personal Genome – General Edition)
Upper Abdominal MRI

* Programme pricing varies by service series, reflecting differences in clinical environment, privacy level, and service experience.
All screening items remain consistent across both series.

- Notes
- The Cardio–Cerebro Focus Module is available as an advanced extension and is selected in addition to the Pinnacle Comprehensive Preventive Programme.
 - Other specialist modules may be selected individually, based on personal health priorities.
 - All modules are designed for preventive risk assessment and clinical reference only.
 - Availability of certain tests may be institution-specific
